### **EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Regarding independent claims 1, 6, and 46, the prior art of record does not disclose or reasonably suggest encoding a transition portion with part rectangular and part non-rectangular windowing.

Regarding independent claims 5 and 10, the prior art of record does not disclose or reasonably suggest lossy coding based on a lapped transform with non-rectangular windowing and lossless coding based on linear predictive coding using an adaptive filter with rectangular windowing.

Regarding independent claims 11, 15, 19, 32, 36, and 41, the prior art of record does not disclose or reasonably suggest a combination of a user designation of whether a frame is to be encoded in a lossy compression mode or a lossless compression mode, encoding a frame with non-rectangular windowing for a lossy compression mode and encoding a frame with a rectangular windowing for a lossless compression mode, and encoding frames with transition windowing for frames between frames coded with lossy coding and frames coded with lossless coding.

Regarding independent claim 24, the prior art of record does not disclose or reasonably suggest applying a lapped transform based codec with overlapping non-rectangular windowing on a first part of a signal, applying transition windowing to a transition part of a signal between a first and second part of a signal, and applying a

Art Unit: 2626

non-lapped transform based codec with non-overlapping rectangular windowing to a second part of a signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
